

# Quebec French Translation

## English to French

Begun over 400 years ago by a handpicked few, this language still bears echoes of its royal ancestry on the tongues of labourers and businesspeople, doctors, engineers, students and world shakers. The fabric of Canadian economic and social life would come undone without it.

It has been our life-blood for the past 34 years. We feed on *Le Devoir* and CBC Radio-Canada. Our translators and editors (3) are all from the Province of Québec and boast over one hundred years' experience combined.

We have an enviable track-record with the private sector, national associations and the federal government.

If you feel that you could use our skills to advance your bilingual communications program, give us a call or e-mail us at [frenchtranslation@rainbowtranslationservices.com](mailto:frenchtranslation@rainbowtranslationservices.com).
